NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1. BASIS OF PREPARATION

This condensed consolidated interim financial information for the six months ended 30 June 2007 has been prepared in accordance with Hong Kong Accounting Standard 34 (“HKAS 34”) “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2006.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the annual financial statements for the year ended 31 December 2006.

The following new standards, amendments to standards and interpretations are mandatory for the financial year ending 31 December 2007:

- HKAS 1 - Amendments to Capital Disclosure, effective for annual periods beginning on or after 1 January 2007;
- HKFRS 7 “Financial Instruments: Disclosures”, effective for annual periods beginning on or after 1 January 2007;
- HK(IFRIC)-Int 7 “Applying the Restatement Approach under HKAS 29, Financial Reporting in Hyperinflationary Economies”, effective for annual periods beginning on or after 1 March 2006;
- HK(IFRIC)-Int 8 “Scope of HKFRS 2 - Share-based Payment”, effective for annual periods beginning on or after 1 May 2006;
- HK(IFRIC)-Int 9 “Reassessment of Embedded Derivatives”, effective for annual periods beginning on or after 1 June 2006;
- HK(IFRIC)-Int 10 “Interim Financial Reporting and Impairment”, effective for annual periods beginning on or after 1 November 2006.

The adoption of these new standards, amendments and interpretations has no significant impact on the Group’s interim financial information.

The following new standards, amendments to standards and interpretations have been issued but are not effective for the financial year ending 31 December 2007 and have not been early adopted:

- HKFRS 8 “Operating Segments”, effective for annual periods beginning on or after 1 January 2009;
- HK(IFRIC)-Int 11 “HKFRS 2 — Group and Treasury Share Transactions”, effective for annual periods beginning on or after 1 March 2007;
- HK(IFRIC)-Int 12 “Service Concession Arrangements”, effective for annual periods beginning on or after 1 January 2008;
- HKAS 23 (revised) “Borrowing Costs”, effective for annual periods beginning on or after 1 January 2009.

The management is currently in the process of assessing the impact of application of these new standards, amendments or interpretations on the Group’s financial statements in the period of initial application.

3. SEGMENT INFORMATION

No business segment information of the Group is presented as the Group's revenue, expenses, assets, liabilities and capital expenditure are primarily attributable to the manufacturing and sales activities of printers, tax control equipment, projectors and other electronic products.

The directors of the Company are of the view that the presentation of geographical segment information is not meaningful since the Group's production is based in the People's Republic of China (the "PRC"), and there is no substantial difference in risk and reward of revenue derived from markets in or outside the PRC.

4. INCOME TAX CREDIT/(EXPENSES)

	For the six months ended 30 June	
	2007	2006
	RMB'000	RMB'000
Current income tax		
— Hong Kong profits tax	—	(348)
— PRC enterprise income tax	(1,391)	(2,688)
Deferred income tax	2,455	—
	<u>1,064</u>	<u>(3,036)</u>

Hong Kong profits tax

No Hong Kong profits tax has been provided for as there is no assessable profit derived in Hong Kong for the six months ended 30 June 2007.

PRC enterprise income tax

PRC enterprise income tax of the Group's entities established in the mainland China, mainly Kong Yue Jolimark Information Technology Limited ("Kongyue Jolimark") and Kong Yue Electronics & Information Industry (Xinhui) Limited ("Kongyue Information"), is provided for on the basis of the profit for statutory financial reporting purposes, adjusted for income and expenses items, which are not assessable or deductible for income tax purpose. As Kongyue Jolimark and Kongyue Information are established in the Coastal Open Economic Zones of the PRC, their applicable enterprise income tax rate is 27%, which comprised 24% attributable to national income tax and 3% attributable to local municipal income tax.

Moreover, since both Kongyue Jolimark and Kongyue Information are currently recognised as "Advanced Technology Enterprise", they are entitled to 50% reduction in national income tax and full exemption from local municipal income tax for the year ending 31 December 2007. Therefore, the effective income tax rate of Kongyue Jolimark and Kongyue Information is 12%.

On 16 March 2007, the National People's Congress approved the Corporate Income Tax Law of the PRC (the "new CIT Law"), which unified the corporate income tax rate for domestic and foreign enterprises at 25% with effective from 1 January 2008. Since the deferred tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realised and liability is settled, the change in the applicable tax rate affected the determination of the carrying values of deferred tax assets and liabilities of the subsidiaries located in mainland China. In this condensed consolidated interim financial information, deferred tax assets of Kongyue Jolimark and Kongyue Information to be realised after 1 January 2008 has been adjusted to the amounts calculated basing on enterprise income rate of 25% with a credit to income tax of RMB2,171,000. As at the date that this condensed consolidated interim financial information is approved for issue, detailed measures of the new CIT Law have yet to be issued, specific provisions concerning the applicable income tax rates, computation of taxable income, as well as specific preferential tax treatments and their related transitional provisions for the periods from 2008 and onwards have not been clarified.

5. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit attributable to shareholders of the Company by the weighted average number of ordinary shares in issue during the period.

	For the six months ended 30 June	
	2007 RMB'000	2006 RMB'000
Profit attributable to shareholders of the Company	2,250	10,823
Weighted average number of ordinary shares in issue (<i>thousands</i>)	597,210	505,635
Basic earnings per share (<i>RMB per share</i>)	<u>0.004</u>	<u>0.021</u>

Diluted earnings per share is equal to basic earnings per share as there were no potential dilutive shares in issue during the six months ended 30 June 2007 and 2006, respectively.

6. DIVIDEND

	For the six months ended 30 June	
	2007 RMB'000	2006 RMB'000

BUSINESS REVIEW

“Printer and Tax Control Equipment” Business

In view of intensive competition in printer market and to further increase the market share of Jolimark’s printers, the Group adopted a competitive pricing strategy for the printer and tax control equipment business during the first half of 2007, which brought an increase of the turnover of the printer and tax control equipment business by 6% to RMB276,777,000, contributing 71% of the Group’s turnover. Sales of Jolimark brand products increased by 5% comparing with the corresponding period of last year, which amounted to RMB64,191,000, and accounted for 23% of turnover of this business line. Gross profit margin for printer and tax control equipment of the first half of the year decreased significantly which was mainly due to the decrease of gross profit margin for Jolimark brand products.

Projector Business

The turnover of the projector business decreased by 13% to RMB86,909,000 compared with the corresponding period of last year, resulting mainly from the delayed production of certain customers' orders. However, with the rapid growth of computer projector market in the PRC and based on the number of expected customers' orders, the Group is confident that its computer projector business will recover rapidly in the second half of the year and the turnover for the whole year can maintain a stable growth. At the same time, owing to the low gross profit margin of the computer projector distribution business, the gross profit margin of the computer projector business during the first half of the year decreased from 12% in the corresponding period of last year to 8%.

Other Electronic Products Manufacturing Business

The Group's other electronic products manufacturing business (including the manufacturing of envelope machines) also achieved stable growth, with its turnover amounting to RMB27,389,000, representing an increase of 28% compared with that of the corresponding period of last year, contributing 7% of the Group's turnover. The increase was mainly attributed to the increase of the existing customers' orders. The Group's other electronic products manufacturing business mainly focused on optical-electro-mechanical integrated products, which were mainly sold to the overseas small-middle customers. Thus, the Group can maintain a relative stable gross profit margin, which increased by 2% to 15% during the first half of the year compared with that of the corresponding period of last year. Leveraging on its strong customer base, better quality control, professional customer services, and the advantage of low manufacturing costs, the Group is confident that the electronics manufacturing services business will maintain a stable growth this year.

FINANCIAL REVIEW

Results Summary

The turnover of the Group for the six months ended 30 June 2007 was RMB391,075,000, increased by 2% compared with that of the corresponding period of last year. The gross profit margin decreased to 12%, compared with 15% for corresponding period of last year.

During the period, the Group recorded an operating profit of RMB3,770,000, representing a decrease of RMB14,887,000 from the corresponding period of last year, which was mainly attributed to the intensive competition in the printer and tax control equipment market. The Group adopted a more competitive pricing strategy in the first half of 2007, which led to a slight increase in the turnover. However, the gross profit decreased, resulting in a much lower net profit compared with that of the corresponding period of last year.

During the period, the profit attributable to shareholders was RMB2,250,000, and the basic earnings per share was RMB0.004, representing a decrease of RMB8,573,000 and RMB0.017, respectively, from the corresponding period of last year.

Acquisition and Disposal

Given that the projector market in the PRC will rapidly grow in the next five years, Visionic, a wholly owned subsidiary of the Group, entered into an agreement with Phenix Optics Ltd. ("Phenix Optics") in March 2007 to acquire the interests of Shanghai Phenix Digital held by Phenix Optics at a consideration of RMB4,340,000. After the acquisition, Shanghai Phenix Digital became a wholly owned subsidiary of the Group. Phenix Optics is mainly engaged in the development, manufacturing and distribution of digital display products. In view of the strong demand of high quality and price-competitive products from the small-middle enterprises and the education sector, the Group will develop and launch the first series of projectors under "Jolimark" brand name by the end of this year. The Group believes that Jolimark's projector business will benefit from the growing projector market in the PRC.

Capital Expenditure

For the six months ended 30 June 2007, capital expenditure amounted to RMB8,188,000, which was mainly used for the purchase of moulds for production and research and development equipment.

Liquidity and Financial Position

As at 30 June 2007, the total assets of the Group amounted to RMB775,949,000 (2006: RMB776,995,000), shareholder's fund amounted to RMB550,155,000 (2006: RMB559,725,000), minority interests amounted to RMB12,081,000 (2006: RMB15,889,000) and current liabilities amounted to RMB213,713,000 (2006: RMB201,381,000). The current ratio of the Group was 3.02 (2006: 3.22).

As at 30 June 2007, the cash and the cash equivalents of the Group amounted to RMB63,928,000 (2006: RMB100,834,000).

As at 30 June 2007, the bank loans of the Group amounted to RMB83,333,000 (2006: RMB57,809,000) and the gearing ratio was 10.7%. The Group had no assets held under finance lease or operating lease during the period.

Contingent Liabilities

As at 30 June 2007, the Group had no material contingent liabilities.

STAFF

As at 30 June 2007, the Group employed a total staff of 1,006, of which all staff were employed in Mainland China except for 11 were employed in Hong Kong and overseas. The Group implemented its remuneration policy based on the results and the performance of an individual staff member. In addition, fringe benefits such as insurance, medical allowance and pension were provided to ensure the competitiveness of the Group.

Change of Qualified Accountant and Company Secretary

Mr. Wong Kwok Kuen ("Mr. Wong") has tendered his resignation as the Financial Controller, Qualified Accountant and Company Secretary of the Company with effect from 23 August 2007 due to personal reasons. Meanwhile, Mr. Li Ho Cheong ("Mr. Li") has been appointed as the Qualified Accountant and Company Secretary of the Company with effect on or before 17 October 2007. Mr. Li is a member of the Hong Kong Institute of Certified Public Accountants and an associate member of the Association of Chartered Certified Accountants and has over 9 years of experience in audit and accounting.

FUTURE BUSINESS OUTLOOK

For the printer and tax control equipment business, as the commencement of Golden Tax Project Phase III and the steady demand of matrix printers from such sectors as financial, medical, education and communication, the Group expects that the matrix printer market in the PRC will maintain a stable growth in the coming years. Meanwhile, the Group also believes that dot matrix printers, thermal mini printers and bar-code printers will become more and more popular, and their markets will expand at a rapid pace. The Group's strategy for growth is to strengthen the development of the products under Jolimark brand name. Although the competition in the matrix printer market is intensive, the sales of Jolimark's products increased in the first half of the year as the Group leveraged its cost advantages through the implementation of its pricing strategy. Following the delivery of "China Mobile" order beginning from the second half of the year and the invitations of tenders for distance education projects, the Group expects Jolimark brand business will enjoy a robust growth in the second half of the year. In addition, the Group will launch a brand new series of products, which will definitely help the Group improve the gross profit margin. In the first half of this year, the new business of mini printers under Jolimark brand name held successful marketing activities. In particular, the self-developed mini printer mechanism products were well received by many manufacturers of tax control electronic cash registers. It is expected that, in the second half of the year and the coming years, the mini printers will be the new driver for a substantial growth of the printer business of the Group. The invitations of tenders for tax control electronic cash registers of Golden Tax Project Phase III will be commenced in the second half of 2007. In light of the competition edges of the Group in this sector, tax control equipment will be the strong growth point of the Group in the next few years.

For the projector business, the Group expects that the projector business would record a significant growth for the whole year. With completion of the stock clearance of projector products under its distributorship, the Group expects the gross profit margin of the projector business for the second half of the year would improve over the first half of the year. As the projector market has expanded rapidly, the Group expects the size of the PRC's projector market will reach RMB 8 billion by 2008. In addition, the Group also plans to launch projectors under "Jolimark" brand name in the second half of the year, and believe that, taking advantage of its distribution channels for the printers and its reputable brand name, the sales of Jolimark's projectors brand will increase rapidly in the coming years.

For the manufacturing of other electronic products, the Group mainly focuses on the OEM manufacturing of optical-electro-mechanical integrated products, with its major customers are overseas small-middle enterprises. Accordingly, the gross profit margin is higher and more stable. The Group will mainly strengthen the expansion in Japan and European and US markets, and seek opportunities for investment and acquisition in the future, so as to enhance the Group's competitive edges in the sector of manufacturing of optical-electro-mechanical integrated products.
